### **DETAILED ACTION**

1. The amendments filed on 12/27/99 have been entered into the record. Claims 1-26 are pending in the application.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-21, 25, drawn to a method/apparatus for file allocation, classified in class 707, subclass 205.

II. Claims 22-24, 26, drawn to a method/apparatus for network computer reconfiguring, classified in class 707, subclass 221.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different functions, and provide different effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made on 3/10/2000 but failed to contact Mr. Eduardo E. Drake for requesting an oral election.

Art Unit: 2773

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
